

Business Class Service For Home Users

Computer Repair Services

Free estimates

Cypress Systems, Inc. is pleased to announce our new walk in repair services. Now home users can receive the same levels of technical / engineering support provided to our business class clients. We have made our name in the Reno area by providing the best services available. Cypress Systems, Inc. has decided to expand and offer computer depot repair services.

Our engineers have multiple certifications in a variety of technology disciplines, we have networking professionals, printer and imaging experts, security experts and engineers who specialize in spyware and virus removal. We work on all major hardware platforms such as PC's and Macs. We are also a Microsoft certified partner.

We provide cost effective / competitive labor rates for our repair services. Our shop rates are \$80.00 an hour with a 30 minute minimum. You will always be contacted prior to any work being done. Most repairs are turned around on the same day.

So for quality and value, there's no better place to turn for all your computing needs than Cypress Systems, Inc. Call us today at 775.284.0392 for immediate assistance!

***Please note: service is for walk in clientele only. System must be delivered in by client to Cypress Systems, inc tech center**
